

BUSINESS	SAFETY GRANT
Kansas City Pet Project	Bulletproof vests to reduce exposure to struck by injuries
Sentinel Emergency Solutions, LLC	Scissor lift to reduce use of ladders and fall exposures
Cheltenham Construction Services, Inc.	Remote controlled hooks to reduce falls from elevation
Donald Maggi, Inc.	Aluminum trench box to reduce exposure to trench collapse
Kansas City Railcar Service Inc.	Work platforms to reduce fall exposures
Korte Enterprises, LLC	Grapple attachment to reduce exposure to strains
Missouri Machinery and Engineering Co.	Cranes to reduce exposure to strains
Ebenezer Fire Protection District	SCBA filling station to reduce the likelihood of high-pressured explosions
Hendrickson Tree Care Company	Alert Meter Program and a two-year subscription to monitor employee alertness to reduce exposures of all kinds
Jefferson City Housing Authority	Four Tommy Gates and six toilet karts to reduce strains from material handling
Pro Food Systems, Inc.	Robotic palletizer to eliminate manual material handling
Three Stone Realty, LLC	Six pump jack systems to reduce ladder usage and prevent falls from elevation
Butler County EMS, LLC	Auto chest compression device to allow an employee to remain buckled in while the vehicle is in motion
Mosby Building Arts Ltd.	Saw stop to prevent cuts and amputations
Storee Construction Company, Inc.	CombiLift to reduce manual material handling and strain exposure
A&M Tree Care, LLC	Grapple truck to reduce strain injuries from manual lifting
Brookfield Fabricating Corporation	Remote controlled release system to reduce risk of caught under exposures
Columbia Construction Corporation	Lift tables to reduce exposure to strain injuries
Friends of the Zoo, Inc. of Kansas City, Missouri	Materials to build a pathway to reduce slip, trip fall exposure
Kueker's Lawn Service, LLC	Hydraulic skid vacuum to reduce manual material handling and strain exposure
Fruitland Area Fire Protection District	Automatic hose roller to reduce strains to firefighters
Metro West Fire Protection District	Patient lifts to reduce strains from patient handling
Remains, LLC	Stairway and mezzanine railing project materials to reduce exposure to falls from elevation
City of Sedalia	Message and radar sign to protect workers from being struck by motor vehicles

Columbia Construction Corporation	Saw stop to prevent cuts and amputations
Habitat for Humanity	Fall protection harnesses to reduce fall exposures
Habitat for Humanity of Kansas City	Forklift for material handling to reduce exposure to sprains and strains
Mid-America Truss	Power sealer to reduce shoulder and back strain when banding loads together
Louisa Food Products, Inc.	Automatic forklift battery changer to prevent strains
Public Safety Solutions MO, LLC	Rolling staircase ladders to reduce fall exposures
Superior Moving Service, Inc	Battery-operated material handling equipment to reduce strain exposure
Tri-County Trucking & Excavating, Inc.	Electric roll tarps to reduce strains
WMF, Inc.	Machine to lift heavy materials to reduce strains
Weaver Steel Construction, LLC	System to remove silica dust to prevent industrial hygiene claim
Coastal Energy Corporation	Material lifts to lower the risk of back and shoulder injuries
Crown Linen Service, Inc.	Automated blanket folder to eliminate repetitive motion
John Fitzgibbon Memorial Hospital Inc.	Patient lifts to reduce strains and sprains to healthcare workers
MRCI, LLC	Cart tipper to reduce the strain of manually lifting heavy trash hoppers into dumpsters
Craftsmen Industries, Inc.	Dust collection system to reduce exposure to harmful materials in the air
Electrical Contractors, Inc.	Genie lift to reduce ladder usage and exposure to falls from elevation
BEK Moving Co., LLC	AirRide seats, hydraulic lifts and stair climbers to reduce strain injuries
City of Sikeston	Communication headsets to reduce the risk of workers being pinned or struck by equipment
City of Willard	Trench box and shoring equipment to reduce the risk of trench collapse injuries
Dunklin Fire Protection District	Automated hose roller to reduce strain exposures
Hickman Mills C-1 School District	AI camera system to identify slip, trip, and fall exposures
Monarch Fire Protection District	Program to identify physical issues with employees to provide a structured workout plan to reduce strain exposure.
United Cerebral Palsy Heartland	Stationary patient lifting devices to reduce strains
All About Trees, LLC	Chainsaw pants to reduce the likelihood of cuts/ amputations
Brothers Glass & Glazing, LLC	Skyjack boom lift to eliminate ladder use and decrease fall exposure

Cam-MO Ambulance District	Powered chair for patient handling on stairs/uneven surfaces
City of Boonville	Trench box to reduce risk of trench collapse injuries
Kane Enterprise Solutions, LLC	Smartlift glass manipulator to reduce manual material handling and strain exposure
Miller County Ambulance District	Powered chairs for patient handling on stairs/uneven surfaces
Pony Bird, Inc.	Ceiling mounted patient lift and five shower trolleys to reduce strains
Schutte Lumber Company LLC	Battery-powered banding tools to reduce repetitive motion and strain injuries
Specialty Family Tree, LLC	Communication headsets to reduce the risk of workers being pinned or struck by equipment
Taney County Ambulance District	Samson strap and Samson backboard handles to reduce patient handling strains
Washington Area Ambulance District	Powered chairs for patient handling on stairs/uneven surfaces
