

24/7 WORK INJURY LINE

Helping Your Employees Get the Care They Need Faster

Streamline your employees' care and reduce costs with MEM's 24/7 work injury line, offering nurse triage powered by Medcor who partners with Concentra to provide telemedicine services. Injured workers receive quick access to quality medical care, reducing costs and minimizing lost work time for your business.

KEY BENEFITS:

- **Fast and Easy Access:** No registration required. Injured workers simply call our **24/7 work injury line (800.442.0593)** and speak to a registered nurse, **regardless of the time or day.**
- **Expert Guidance:** Experienced nurses will **evaluate the injury and recommend the best course of action**, including:

NURSE TRIAGE

- Self-care instructions for minor injuries.
- Referral to a qualified provider within MEM's network, ensuring familiarity with workers compensation.
- See a doctor now with telemedicine.

TELEMEDICINE

Consultation with a physician for minor injuries:

- Upper/lower extremity strains/sprains
- Minor neck and back strains/sprains
- Bruises/contusions
- Minor burns
- Abrasions/scrapes
- Contact dermatitis/rashes
- Tendinitis/repetitive-use injuries
- Bloodborne pathogen exposures

- **Seamless Claim Reporting:** The nurse triage report initiates the **First Notice of Loss process**, ensuring timely and efficient claim handling.
- **Employee Satisfaction:** Providing quick and convenient care can help employees feel **supported and valued** during an injury.

TESTIMONIAL

Using triage regularly, we've sent fewer people to the ER. From speaking directly with a nurse to MEM's follow-up calls, our employees really feel cared for if an injury occurs. Nurse triage has significantly improved injury management in our schools and throughout the organization."

Joe Braddock, CFO, Catholic Diocese of Jefferson City

HOW IT WORKS

1

Immediately tell your supervisor
you've been injured.

2

Call the MEM **NurseAid+**
24/7 WORK INJURY LINE
together for non-emergent injuries.
Make the call even if the supervisor is unavailable.

3

Personalized treatment and care coordination by
a registered nurse.
Learn the best course of action - self-care, clinic referral, or telemedicine.

4

See a doctor now with telemedicine.
Injuries are evaluated, diagnosed, and treated via video.

5

First report of injury automatically sent to MEM.
MEM claims experts will follow up via phone or email to obtain missing
claim information.
